## PROFESSIONAL SUMMARY

Full-stack developer specializing in React.js and C# (.NET Core) with experience building scalable, cloud-based web applications. Proven ability to develop RESTful APIs, optimize database performance, and deliver responsive, user-focused interfaces. Strong foundation in data structures, system design, and modern software engineering practices.

## SKILLS and CERTIFICATES

- Programming Languages: C#, JavaScript, Java, Python.
- Frameworks: React.js, ASP.NET Core, jQuery.
- Databases: MySQL, SQL Server, MongoDB.
- Tools & Technologies: Git, GitHub, Docker, Visual Studio, CI/CD.
- Software Engineering Concepts: DSA, OOP, REST APIs.
- Certifications: C# masterclass, Asp.Net Core 9, React with Redux (Udemy) | Python (Kaggle)

## EDUCATION

**Full Stack Software Development -** Lambton College, Toronto — Sep 2023 – May 2025
**Bachelor of Information Management -** Tribhuvan University, Nepal — Apr 2017 – Feb 2022

## PROJECTS

**Inventory & Par Level Management System**

- Developed a full-stack inventory management platform used across multiple restaurant operations.
- Built scalable RESTful APIs using ASP.NET Core for inventory and user management.
- Created a React.js dashboard for real-time inventory visibility, reducing manual tracking effort.
- Implemented low-stock alerts, improving inventory efficiency.
- Designed multi-store architecture enabling independent inventory control for multiple locations.
- Integrated SQL Server and deployed on Azure App Service, ensuring reliability and scalability.

**JanSport Website**

- Tech: Django, Bootstrap, JavaScript
- Developed a full-stack e-commerce platform with authentication and product management.
- Implemented search functionality with responsive UI and enhanced user experience.

## WORK EXPERIENCE

**Front-end Developer** — Mar 2021 – May 2023
Evolve Pvt. Ltd, Kathmandu, Nepal

- Delivered and maintained scalable applications using React.js.
- Developed high-quality interfaces with strong focus on usability and performance.
- Build reusable components and managed application state using hooks and modern React patterns.
- Integrated RESTful APIs with frontend components, ensuring smooth data flow and real-time UI updates.
- Collaborated closely with backend developers, designers, and clients to gather requirements.

**Back Room Supervisor** — Aug 2023 – Present
YSM's Double Take, Toronto, ON

- Demonstrated leadership, teamwork, and time management skills in a fast-paced environment.
- Led staff and volunteers, enhancing team coordination and efficiency.
